“VOICES OF HISTORY®: ISRAEL” Audio Cassettes

Throughout the 1970's until his untimely death in 1979, writer/educator/dramatist Dr. Samuel J. Citron took it upon himself to interview leading authorities on special topics in contemporary Jewish history, mostly relating to the State of Israel. Over the course of ten years of painstaking work, he completed the immense task of pulling together personal accounts of many of the more significant events of the last hundred years. The set consists of 58 audiocassettes, each one focusing on a different topic of interest. As fascinating as the subject matter are the interviewees themselves: former Israeli Prime Ministers David Ben Gurion, Golda Meir and Menachem Begin, Presidents Yitzhak Navon and Ezer Weizman, archeologist Yigael Yadin and statesman Abba Eban, to name but a few. Topics are as diverse as the Battle of Jerusalem, the Birth of the State of Israel, the Israeli Air Force, Israel in the International Arena, Masada and Recollections of the Pioneering Years. Each tape begins with an introduction and a list of suggested subjects for consideration. A unique collection that no home or school should be without. A production of the Jewish Heritage Institute of Friends of the Jewish Theatre for Children, Inc.
